EDUCATION	Columbia University M.A. in Political Science GPA: 3.78/4.00 Advisor: Junyan Jiang <i>Sep 2024 – May 2025</i> Communication University of China B.A. in Public Administration GPA: 89/100 Advisor: Zijie Shao <i>Sep 2020 – Jul 2024</i> University of California, Irvine Visiting Student <i>Sep 2022 – Mar 2023</i>
RESEARCH INTERESTS	Policy responsiveness; political institutions; text-as-data; causal inference
WORKING PAPERS AND WORKS IN PROGRESS	Non-Institutional Constraints and Policy Responsiveness Manuscript in preparation on how non-institutional pressures shape bureaucratic responsiveness and policy responsiveness in China. Design-Based Framework for Additive Unit-Level Record Linkage Methods manuscript in preparation on design-based inference for linkage problems where the estimand is a unit-level additive quantity. Inference for Closed-World Archival Extraction Methods manuscript in preparation on constructing structured historical data from large archival corpora using a RAG-like framework.
RESEARCH EXPERIENCE	Research Assistant, Prof. Junyan Jiang <i>Jan 2025 – Nov 2025</i> Central Environmental Inspection and Government Responsiveness <i>Thesis project under the supervision of Zijie Shao</i> <i>Feb 2024 – Jul 2024</i> Research Assistant, Prof. Zijie Shao <i>Feb 2023 – Apr 2023</i>
SELECTED RESEARCH INFRASTRUCTURE	Baixiao Chat <i>Main Developer</i> <i>Jan 2025 – Present</i> - Baixiao Chat CSED: China Social Event Database <i>Independent project</i> <i>Dec 2024 – Jan 2025</i> - Github Repo

ADDITIONAL
RESEARCH
APPOINTMENTS

Tongjian AI
Research Engineer

May 2025 – Present

The Pathways and Mechanisms of Generative AI in Social Science Education
Dec 2025 – Feb 2026
Collaborative project; PI: Xiang Gao (Zhejiang University)

Research on Communication Strategies for Socialist Political Discourse in the All-Media Era
Feb 2023 – Apr 2023
Collaborative project; PI: Zijie Shao (Communication University of China)

Institute for Global Decarbonization Progress (iGDP) *Apr 2022 – Nov 2022*
Research Assistant

The Nature Conservancy (TNC) *Jul 2021 – Feb 2022*
Data Analysis Assistant

METHODS AND
TECHNICAL SKILLS

Methods: text analysis, panel data analysis, quasi-experimental designs
Software and Programming: Python, R, Stata, SQL, HTML/CSS, JavaScript
Research Computing: BigQuery, SQLite, FAISS, OpenSearch, Milvus, Git, Docker, Shell, L^AT_EX
Languages: Chinese (native), English (professional)
